

GC Update: 8/1/2020

Dear Summerfield Community,

Though it was reported on the California Department of Public Health website that Sonoma County went off the watchlist on July 29th, that is not the case. The County remains on the watchlist. We are still waiting to hear from the state regarding the waiver protocols.

To open school on campus we would need a waiver - this would apply to lower school - or for the county to be off the watchlist for 14 days. ECE can be on campus.

We apologize for the confusion.
